

STEM PD Net

- is a network of institutions providing teacher Professional Development (PD) in STEM education,
- aims to improve STEM education as it happens day-to-day in schools by investing in teacher PD,
- supports the delivery of PD of the highest quality: PD which is research-based and corresponding to teachers' needs

Who are the Network members?

- 30 institutions offering STEM PD from 12 European countries
- Network meetings approximately twice a year, at different STEM PD centres in Europe

What does the Network do?

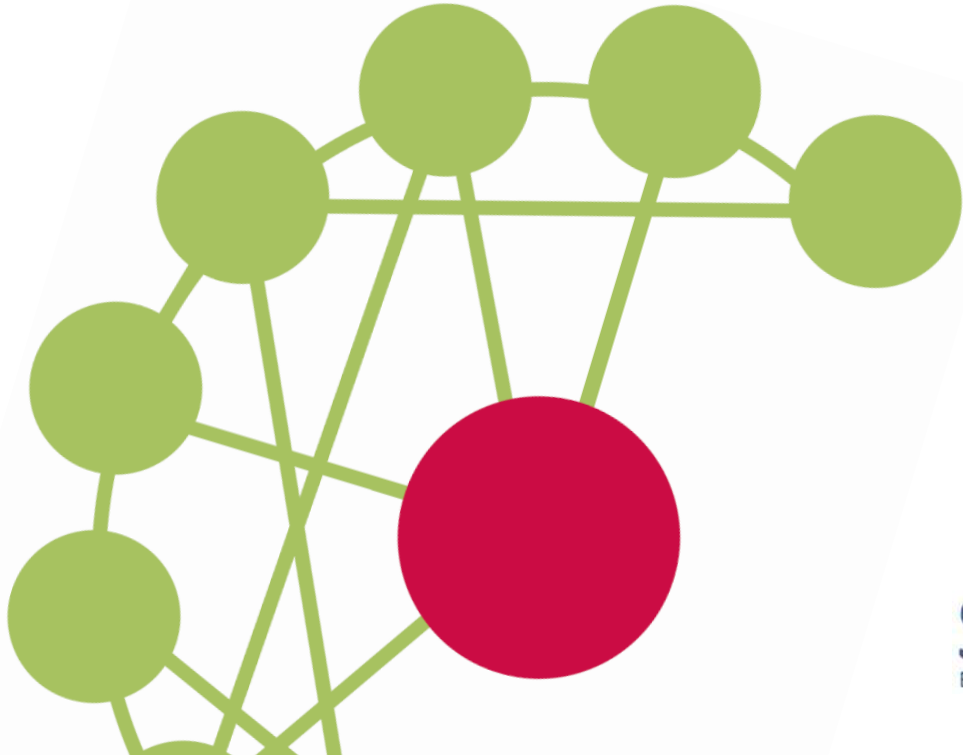

- Developing common standards and guidelines for STEM PD
- Sharing good PD practices and research results
- Exchanging high-quality PD materials
- Facilitating the learning mobility of staff of STEM PD providing institutions
- Supporting a dialogue of STEM PD centres with research and policy
- Maintaining partnerships with schools to ensure the transferability and relevance for teaching practice
